IN THE HIGH COURT OF JUDICATURE AT PATNA
Cr.Misc. No.54040 of 2007.
RAM NATH SAH & ORS
Versus
THE STATE OF BIHAR
---

3. 05.05.2008. Heard.

A dead body has been disposed off. According to the first information report, the death occurred due to murder. According to the petitioners, the death was due to a disease. Apart from statements from one side or the other, there is nothing to suggest that in fact the death was due to a disease. Once it is brought on record that untimely death has taken place, the person or persons who have disposed off the body is or are to establish that the death was natural. To that extent it is their obligation. If they fail to do so, the logical conclusion would follow. The application is accordingly rejected.
